

KIRTI & COMPANY

A symbol of Quality and
Confidence since 1990

Flexible Packaging

ABOUT US

Established in 1995, we are one of India's leading manufacturers of flexible packaging products and pioneers in Shrink Film and Printed Shrink Sleeves in the Indian market.

We are committed to delivering superior packaging solutions with exceptional quality, vibrant designs and high-impact printing that enhances visual appeal.

Our production facilities are equipped with cutting-edge technology, ensuring optimal efficiency, consistent quality and enhanced profitability.

WHY US?

In-house Designing Solutions

In-house Research & Packaging Development Department.

Multi location offices for regional support.

Rotogravure machines for up to 10 colour printing.

Solvent based lamination machines.

High End Converting Equipment for slitting, seaming, cutting, pouching, bag making and inspection.

Quick turnaround times and efficient supply chain management.

Proven track record of serving leading brands across FMCG, Pharmaceutical, Cosmetic and Beverage Sectors.

OUR PRODUCT OFFERING

Our shrink labels are made from high-quality PVC, PET or OPS, designed to seamlessly conform to containers of any shape, ensuring a perfect fit and enhanced visual appeal.

Plain PVC Films

Manufacturing Overview

Our 5,000 sq. m. facility in MIDC, Nagpur is equipped with state-of-the-art machinery, delivering consistently high-quality output.

Backed by a dedicated R&D team, we continuously innovate to meet evolving packaging needs, making us a leading name in the industry.

We work with premium materials like imported Cast PVC, OPS, Pearllised BOPP, and PET- G(Shrink Film) based on our client's requirements.

Committed to sustainability, we strictly follow environmental standards as part of the 'Clean Earth, Green Earth' initiative.

Printing & Production Capabilities

Our plant produces heat shrinkable tubes ranging from 14 mm to 800 mm in width, with lengthwise shrinkage of 0–20% and width-wise shrinkage of 20–58%. Thickness can be customized from 20 to 220 microns as per requirements.

Over time, we've scaled our PVC Shrink Film Sleeve production capacity from 200 to 1,600 metric tonnes annually.

Recently, we've expanded into flexible packaging with a new division dedicated to manufacturing high-quality laminated pouches and rolls.
