PP/HDPE Bags and Rolls

ABOUT US

We are proud to say that our manufacturing facility of PP/HDPE Bags is one of the largest in India. Backed by an extensive infrastructure that includes 8 State-of-the-art Manufacturing Units and over 50 strategically located warehouses across the country, we stand as the undisputed leader in the packaging industry.

With such a rich legacy spanning over decades, we at Kirti & Company are striving to expand our global footprint with innovative packaging solutions, while upholding the highest standards of integrity, sustainability and customer service.

DURABLE • RELIABLE • STRONG • EFFICIENT

Machinery

> Extrusion Plant

Equipped with modern machines from M/S Lohia Starlingers & JP Extrusions, supported by Dosing & Hot Air Drier units from M/S Prasad Koch Tech.

> Looms

Our inventory includes high-speed 6 shuttle power looms from Lohia Starlinger, GCL SLV Lenos, producing 624 varieties of fabric.

> Lamination

JP Industries lamination machines provide additional coating of plastic on fabrics, including BOPP film, as per client needs.

> Twisting Yarn Machine

Our in-house tape line plants are equipped to fibrillate tapes, twist them for added strength using M/S Kristeel-Shinwa machines.

> Liner and Pouches Machine

Inventory includes liner machines from M/S Kabra & M/S Rajoo, producing HMHDPE / LLDPE / LDPE lines & pouches.

> Compounding Additive Machine

M/s Steer Extrusion, coupled with under-water Palletizers from BKG Germany, produces quality additives.

> Recycling Plant

Our Austrian NGR (New Generation Recycling) machine converts all plastic waste into usable RP-Granules, promoting sustainability.
